Daily Returns Distribution

The histogram displays the frequency of daily returns. The x-axis is labeled with return values in increments of 0.01, ranging from -0.07 to 0.05. The y-axis represents the frequency, ranging from 0 to 500. The distribution is centered around 0.00, with a peak frequency of approximately 450. The data shows a slight right skew, with a long tail extending towards positive returns.
